### Figure 3

Diagram illustrating a data structure 400, which is a table with multiple rows and columns. The columns are labeled as follows:

- W1, W2, W3A, W3B, W4, W5, W6, W7, W8
- T2
- CW
- WB1, WB2, WB3A, WB3B, WB4, WB5, WB6, WB7, WB8
- T7
- WC1, WC2

The table is divided into three main sections by vertical lines:

- Section 401 (leftmost): Contains columns W1 through W8.
- Section 402 (middle): Contains columns WB1 through WB8.
- Section 403 (rightmost): Contains columns T2, T7, and CW.

Additional labels and arrows indicate specific rows and data flow:

- 404 points to the top row of the table.
- 403 points to the top row of the table.
- 350 points to the bottom row of the table.
- 351 points to the bottom row of the table.
- 352 points to the bottom row of the table.
- Arrows point from the bottom row of the table to the labels 350, 351, and 352.
- Arrows point from the bottom row of the table to the labels 401, 402, and 403.
- Arrows point from the bottom row of the table to the labels 404 and 405.
